

# Material Safety Data Sheet

According to REACH Regulation (EC) No. 1907/2006, Annex II

Page 1 of 4

Flu A/B Test Device

Version No. 2

Date of issue: 10 February 2009

## \*1. Identification of the substance/preparation and of the company/undertaking

### Product details

Trade name: **Flu A/B Test Device**

Application of the substance / the preparation: In vitro diagnostic reagent. For professional use only.

### Manufacturer/Supplier:

#### Manufacturer

Inverness Medical,  
10 Southgate Road,  
Scarborough,  
Maine 04074, USA.

Tel: +1 207-730-5750

Fax: + 1 207-730-5717

Email: [TS.Binax@invmed.com](mailto:TS.Binax@invmed.com)

Further information obtainable from: [www.invernessmedicalpd.com](http://www.invernessmedicalpd.com)

### Information in case of emergency:

Tel: +1 207-730-5750

## \*2. Hazards identification

### Hazard description:

Xi, Irritant

### Information concerning particular hazards for human and environment:

R36 Irritating to eyes.

### Classification system:

The classification is according to the latest editions of the EU-lists, and extended by company and literature data.

## \*3. Composition/information on ingredients

### Chemical characterisation

#### Description:

In vitro diagnostic reagent test device. Preparation. Laminated test strip consisting of solid support materials impregnated with dried chemical / biochemical reagents.

### Dangerous components:

Component	CAS No.	EINECS No.	Classification	Concentration
Na <sub>4</sub> EDTA	64-02-8	200-573-9	Xn (Xi); R22-41	2 – 5 %
N-Tetradecyl-N,N-dimethyl-3-ammonio-1-propane sulfonate	14933-09-6	-	Xi; R36/37/38	2 – 5 %
Triton X100	9002-93-1	-	Xn (Xi); R22-41	1 – 2 %
Sodium Azide	26628-22-8	247-852-1	T+, N, R 28-32-50/53	< 0.1 %

### Additional information:

For the wording of the listed risk phrases refer to section 16.

The test strip is housed in a hinged cardboard device

## \*4. First-aid measures

### General Information:

The following first aid measures are only relevant in the event of serious misuse, whereby the device is disassembled and there is exposure to the chemicals in the test strip.

**After inhalation:** Supply fresh air; consult doctor in case of complaints.

### After skin contact:

Wash with soap and water and rinse thoroughly.

### After eye contact:

Immediately rinse opened eye for several minutes under running water. Consult a doctor.

### After ingestion:

Wash out mouth with water. Consult a doctor in case of complaint.

## 5. Fire-fighting measures

### Suitable extinguishing agents:

CO<sub>2</sub>, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

Use fire-extinguishing methods suitable to surrounding conditions.

### Special hazards caused by the substance, its products of combustion or resulting gases:

In case of fire, the following can be released: Hazardous fumes, carbon oxides (CO<sub>x</sub>), nitrogen oxides (NO<sub>x</sub>), sulphur oxides (SO<sub>x</sub>).

### Protective equipment:

Wear full protective suit and self-contained respiratory protective device when extinguishing fires.

### Additional information:

The device contains combustible materials.

## 6. Accidental release measures

### Person-related safety precautions:

Refer to Section 8 for protective measures when handling the spillage.

### Measures for environmental protection:

Avoid release to the environment.

### Measures for cleaning/collecting:

Collect material and dispose of as waste according to Section 13.

## 7. Handling and storage

### Information for safe handling:

Observe the general safety regulations when handling chemicals.

Avoid contact with the eyes, skin and mucous membranes.

### Storage:

Store in the original container at 15 to 30°C.

### Requirements to be met by storerooms and receptacles:

No special requirements.

## \*8. Exposure controls/personal protection

### Ingredients with limit values that require monitoring in the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored in the workplace.

### Additional information:

The lists valid during the creation of this MSDS were used as a basis for this assessment.

### General protective and hygienic measures:

Specimens should be handled as potentially infectious materials. Refer to Directive 2000/54/EC for information on handling biohazardous materials.

Adhere to good laboratory practices (GLP).

Wash hands before breaks and at the end of work. Clean work areas with hypochlorite or other disinfecting agent.

# Material Safety Data Sheet

## Personal protective equipment

**Respiratory protection:** Not required.

**Protection of hands:** Disposable gloves (sample handling).

**Material of gloves:** Latex/natural rubber.

**Penetration time of glove material:** Gloves resistance is not critical when the product is handled according to the instructions for use.

**Eye protection:** Safety glasses recommended.

**Body protection:** Lab coat.

## 9. Physical and chemical properties

### General Information

**Form:** Solid test strip housed in a hinged book shape cardboard holder

**Colour:** White

**Odour:** Odourless

**Flash point:** Not applicable.

**Self-igniting:** Product is not self-igniting.

**Danger of explosion:** Product does not present an explosion hazard.

## 10. Stability and reactivity

**Stability:** The product is stable in accordance with the recommended storage conditions.

**Materials to be avoided:** strong acids, strong bases, strong oxidizers.

**Hazardous reactions:** Contact with acids may liberate trace amounts of toxic gas (hydrazoic acid).

**Hazardous decomposition products:** No dangerous decomposition products known.

## \*11. Toxicological information

### Acute toxicity:

Quantitative data on the toxic effects of this product is not available.

### Primary effects (contact with chemicals in the test strip)

**After skin contact:** May cause mild irritation.

**After eye contact:** Irritating to eyes.

**After ingestion:** No significant harmful effects anticipated.

**Sensitization:** No sensitisation effects known.

## 12. Ecological information

### Ecotoxic Effects:

Quantitative data on the toxic effects of this product are not available.

No ecological problems are to be expected when the product is handled and used with due care and attention.

## 13. Disposal considerations

### Product:

Chemical residues and remains should be routinely handled as special waste. Used devices should be disposed of as potentially biohazardous material in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

### European waste catalogue:

18 01 03 wastes whose collection and disposal is subject to special requirements in order to prevent infection

### Packaging:

Disposal must be made in accordance with local waste management regulations.

Contaminated packaging must be disposed of in the same manner as the product.

Non-contaminated packaging materials may be recycled. Contact your local service providers for further information.

# Material Safety Data Sheet

## 14. Transport information

**Land transport ADR/RID (cross-border):**

Not regulated for transport.

**Maritime transport IMDG:**

Not regulated for transport.

**Marine pollutant:** No

**Air transport ICAO-TI and IATA-DGR:**

Not regulated for transport.

## 15. Regulatory information

**Labelling according to EU guidelines****Code letter and hazard designation of product:**

Xi, Irritant

**Risk phrases:**

R36 Irritating to eyes

**Safety phrases:**

S60 This material and its container must be disposed of as hazardous waste.

**Note:**

The preparation is exempt from the above labelling requirements in accordance to Article 12.2 of Directive 99/45/EC as the form in which it is placed on the market does not present any significant risk to man or the environment when used according to the instructions for use.

## 16. Other information

To the best of our knowledge, the information contained herein is accurate. However, neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.

**Relevant R-phrases:**

22 Harmful if swallowed.

28 Very toxic if swallowed.

32 Contact with acids liberates very toxic gas.

36/37/38 Irritating to eyes, respiratory system and skin.

41 Risk of serious damage to eyes.

50/53 Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

**Reason for Update:**

Change in contact information Section 1

General update in accordance with the REACH regulation.

\* Indicates altered section.

**Supersedes:** Version 1
