BinaxNOW® PBP2a Reagent 3

Version No. 1

Date of issue: 12 May 2009

1. Identification of the substance/preparation and of the company/undertaking

Product details

Trade name: **BinaxNow® PBP2a Reagent 3**

Application of the substance/ the preparation: In vitro diagnostic reagent. For professional use only.

Manufacturer/Supplier:

Manufacturer
Inverness Medical,
10 Southgate Road,
Scarborough,
Maine 04074, USA.

Tel: + 1 207-730-5750

Fax: + 1 207-730-5717

Email: TS.Binax@invmed.com

Further information obtainable from: www.invernessmedicalpd.com

Information in case of emergency:

Tel: +1 207-730-5750

2. Hazards identification

Hazard Description:

The preparation is not classified as dangerous according to Directive 99/45/EC.

Classification system:

The classification is according to the latest editions of the EU-lists, and extended by company and literature data.

3. Composition/information on ingredients

Chemical characterisation

Description:

In vitro diagnostic reagent. Aqueous preparation containing the hazardous components listed below.

Dangerous components:

Component	CAS No.	EINECS No.	Classification	Concentration
p-tert-octylphenol ethoxylate	9002-93-1	-	Xn: R22, R41,	1-2%

Additional information:

For the wording of the listed risk phrases refer to section 16.

4. First-aid measures

After inhalation: Supply fresh air; consult doctor in case of complaints.

After skin contact: Wash with soap and water and rinse thoroughly. Remove soiled clothing and clean before re-use

After eye contact: Rinse opened eye for several minutes under running water. Consult a doctor in case of complaint.

After ingestion: Wash mouth out with water. Consult a doctor in case of complaints.

Material Safety Data Sheet

5. Fire-fighting measures

Suitable extinguishing agents:

CO₂, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
Use fire-extinguishing methods suitable to surrounding conditions.

Special hazards caused by the substance, its products of combustion or resulting gases:

In case of fire, the following can be released: Carbon oxides (CO_x), nitrogen oxides (NO_x), sulphur oxides (SO_x), phosphorous oxides (P_xO_y).

Protective equipment:

Wear full protective suit and self-contained respiratory protective device when extinguishing fires.

6. Accidental release measures

Personal safety precautions:

Refer to Section 8 for protective measures when handling the spillage.

Measures for environmental protection:

Do not allow the undiluted product to enter sewer/surface or ground water.

Measures for cleaning/collecting:

Absorb with liquid binding material (paper toweling, sand, diatomite, acid binders, universal binders, sawdust).
Dispose of contaminated material as waste according to Section 13.
Rinse off area with water.

7. Handling and Storage

Information for safe handling:

Observe the general safety regulations when handling chemicals.
Avoid contact with eyes, skin and mucous membranes.

Storage:

Store in original container at 2-8°C.

Requirements to be met by storerooms and receptacles:

No special requirements.

8. Exposure controls/personal protection

Ingredients with limit values that require monitoring in the workplace:

This product does not contain any relevant quantities of materials with critical values that have to be monitored in the workplace.

Additional information:

The lists valid during the creation of this MSDS were used as a basis for this assessment.

General protective and hygienic measures:

Adhere to standard laboratory practices.
Wash hands before breaks and at the end of work.

Personal protective equipment

Respiratory protection: Not required

Protection of hands: Disposable gloves.

Material of gloves: Latex/natural rubber.

Penetration time of glove material: Glove resistance is not critical when the product is handled according to the instructions for use.

Eye protection: Safety glasses recommended.

Body protection: Lab coat.

9. Physical and chemical properties

General information

Form: Liquid

Colour: Colorless

Material Safety Data Sheet

Odour: Odourless

Melting point/melting range: Similar to water, approximately 0°C

Boiling point/ Boiling range: Similar to water, approximately 100°C

Flash point: Not applicable

Self-igniting: Product is not self-igniting

Danger of explosion: Product does not present an explosion hazard

Vapor Pressure: Similar to water, approximately 23 hPa

Density at 20°C: Similar to water, approximately 1.0 g/cm³

Solubility/Miscibility with:

Water: Fully miscible

pH value at 20°C: 6.0

10. Stability and reactivity

Stability: The product is stable in accordance with the recommended storage conditions.

Materials to be avoided: strong acids, strong bases, strong oxidizers.

Hazardous reactions: Preparation contains sodium azide, which may react with lead to form explosive compounds.

Contact with acids may liberate trace amounts of toxic gas (hydrazoic acid).

Hazardous decomposition products: No dangerous decomposition products known.

11. Toxicological information

Acute toxicity:

Quantitative data on the toxic effects of this product is not available.

Primary effects:

After skin contact: No irritating effects anticipated

After eye contact: May cause mild irritation

After ingestion: No significant harmful effects anticipated.

Sensitization: No sensitization effects known.

12. Ecological information

Ecotoxic effects:

Quantitative data on the toxic effects of this product are not available.

No ecological problems are to be expected when the product is handled and used with due care and attention.

13. Disposal considerations

Product:

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent.

European waste catalogue:

18 01 07 chemicals other than those mentioned in 18 01 06.

Packaging:

Disposal must be made in accordance with local waste management regulations.

Packaging materials may be recycled. Contact your local service providers for further information.

14. Transport Information

Land transport ADR/RID (cross-border):

Not regulated for transport.

Material Safety Data Sheet

According to REACH Regulation (EC) No. 1907/2006, Annex II

Page 4 of 4

BinaxNOW® PBP2a Reagent 3

Version No. 1

Date of issue: 12 May 2009

Maritime transport IMDG:

Not regulated for transport.

Marine pollutant: No

Air transport ICAO-TI and IATA-DGR:

Not regulated for transport.

15. Regulatory information

Labelling according to EU guidelines:

Safety data sheet available for professional user on request.

Water Hazard Class (Germany): WGK 1 - slightly hazardous for water.

16. Other information

To the best of our knowledge, the information contained herein is accurate. However, neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.

Relevant R-phrases

22 Harmful if swallowed

41 Risk of serious damage to eyes
